

September 29, 2011

Dear Colleagues and Parents,

Kevin Terrier is a student in the Year 13 at SRIS who is researching the effect on quality assurance practice of the school caterers that has resulted from the changes to China's food safety regulations in recent years. It is an extended research essay that requires him to look at business administration methods in the area of Quality Assurance management. He would like to survey your experience with the school catering company Eurest as part of his data collection and this will require only a few minutes of your time to answer some very particular questions that will appear on the following online website called Survey Monkey. He will collect the results, analyse them and present them as part of his findings in his paper which is due by the end of October.

Would you be so kind as to please contribute to his research by clicking on this link <http://www.surveymonkey.com/s/2NDGFQZ> and answering some questions on your experience with the quality of food provided by Eurest over the last 5 years (bearing in mind that you may not have been at SRIS that long, in which case during the time you have been a consumer of Eurest food here)?

The results will be incorporated in his research findings and will only be disclosed anonymously to Eurest, myself, the Humanities department and the IBO.

Yours sincerely,

Rhoda Yates
